**Certificate**  
**OCT 29 2004**  
**of Correction**

**TRANSMITTAL LETTER FOR REQUESTING A CERTIFICATE OF  
CORRECTION UNDER 37 CFR 1.322**

Sir or Madam:

Patentee respectfully requests correction explained herein.

In the Final Office action mailed 05/05/2003, Examiner Woitach stated that "the applications upon which priority is claimed fails [sic] to provide adequate support under 35 U.S.C. 112 for the claimed invention of this application." (page 3, bottom) The Examiner concluded that the priority for the pending claims is April 6, 1999, the filing date of the above-referenced present application (page 4, top).

In the Applicant's Response after Final (mailed 09/05/2003, received 09/08/2003), Applicant amended the specification by removing the paragraph claiming priority to prior applications, and also removed the heading for that paragraph. Applicant also noted that there was no bibliographic data sheet, which in the Final Office action the Examiner had indicated also should be updated.

On page 2 of the Detailed Action of the Notice of Allowability (mailed 11/19/2003 with the Notice of Allowance), the Examiner stated that, "Applicants' after final amendment filed September 8, 2003 has been received and entered. The specification has been

NOV 02 2004

amended.”

Based on this entering of the amendment, the patent should not have issued with the first paragraph providing a listing of prior applications, nor the heading “CROSS-REFERENCES TO RELATED APPLICATIONS,” because these applications were no longer being claimed for priority purposes. Also, item 63 on the cover page, and its heading, “Related U.S. Application Data,” should have been omitted for the same reason, because there was no longer a priority claim to previously filed applications under 35 USC 119 or 120.

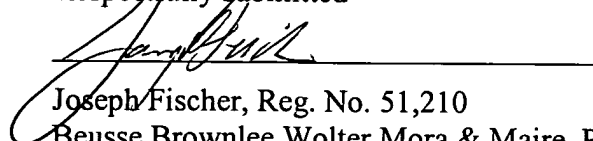

As indicated by the Examiner, no priority claim was allowed, so the effective filing date is the filing date of U.S. application serial number 09/286,874, which was April 6, 1999. The patent term properly is determined from that date.

Accordingly, it is respectfully requested that on the cover page of U.S. 6,730,507 the heading “Related U.S. Application Data” and the paragraph immediately below this heading (i.e., paragraph “(63)”) are deleted, and the heading and paragraph from line 6 to line 24 of column 1 are also deleted. This will serve to correct the patent in accordance with the above.

It is believed that a further error in the Notice of Allowability (mailed 11/19/2003 with the Notice of Allowance) is the inclusion of the first two paragraphs on page 2. This contradicts the entry of the amendment, the latter being in concordance with the Examiner’s previous statements of the Final office action as to priority claims (see above).

Applicant provides a completed Form PTO/SB/44 indicating the errors to be corrected on the issued Patent. In summary, Applicant respectfully requests these corrections, indicated above, to properly indicate what the Examiner concluded, that the application has an effective filing date of April 6, 1999. The patent term appropriately is calculated from this date. Accordingly, the presence of the paragraphs indicating priority to previously filed applications is incorrect.

Respectfully submitted

  
Joseph Fischer, Reg. No. 51,210
